### Figure 3

Diagram 400 illustrates a data structure, likely a table or memory layout, organized into columns and rows. The columns are labeled as follows:

- W1, W2, W3A, W3B, W4, W5, W6, W7, W8
- T2
- CW
- WB1, WB2, WB3A, WB3B, WB4, WB5, WB6, WB7, WB8
- T7
- T12

The structure is divided into sections by vertical lines. The top section contains the first three columns (W1-W8, T2, CW). The middle section contains the next three columns (WB1-WB8, T7, T12). The bottom section contains the remaining columns (WB1-WB8, T7, T12) and is marked with vertical ellipsis dots (⋮) in the center, indicating continuation. Arrows point to specific elements:

- 400 points to the overall structure.
- 401 points to the bottom section.
- 402 points to the top section.
- 403 points to the CW column.
- 404 points to the T12 column.
- 350 points to the bottom section.
- 351 points to the T12 column.
- 352 points to the CW column.
